(see inside for more...)

Marc M. Sedwitz, M.D.

Sunil S. Rayan, M.D.

477 North El Camino Real • Encinitas • California

# North Coast Health Center

## SURGICAL EXCELLENCE

### Sunil S. Rayan, M.D.

Board-Certified in Vascular & Endovascular Surgery

Dr. Sunil Rayan has been in private practice since 2004 and is one of a handful of surgeons in California who is qualified to perform thoracic aortic stent grafting, carotid artery angioplasty, and stenting. He specializes in minimally invasive techniques for the treatment of vascular disease and performs the majority of angiograms, angioplasty, and stents for the group. He has devoted his practice exclusively to vascular surgery. Dr. Rayan received his medical degree from Hahnemann University Medical School in 1996. He trained in general surgery at Beth Israel Deaconess Medical Center, a teaching hospital for Harvard Medical School. Dr. Rayan specialized in vascular surgery at Emory University - one of the premier vascular centers in the United States.

***“Building a new office in North County’s largest outpatient health center allows our practice to grow and offers patients expanded in-office services for added convenience.”***

**Sunil Rayan, M.D.**

### Marc M. Sedwitz, M.D.

Board-Certified in General & Vascular Surgery

Dr. Marc Sedwitz has been practicing medicine since 1983 and has been board certified in surgery since 1985. He received his medical degree from Boston University in 1978. He trained in general surgery at New York Hospital, the teaching hospital for Cornell University. Dr. Sedwitz specialized in vascular surgery at the prestigious University of California, San Francisco. In addition to his board certifications he has received oncologic training at Sloan-Kettering and held an academic appointment at UCSD Medical Center prior to entering private practice. He is an active member of the trauma team at Scripps Memorial Hospital, La Jolla and performs all the general surgery for the group.
